BIO

Timothy Wisdom is a captivating performer. His astonishing sets flow over every contemporary genre and tempo, fusing live MCing, singing, turntablism and incredible hype into a fully engaging show. Every tune, an original production or custom remix, is crafted from his more than twenty years of making large crowds lose themselves in the music. Dubbed as the "Voice of Ghetto Funk", Timothy's sets are unique sessions, filled with spontaneous lyrical content and a charisma that literally lifts audiences off their feet.

Timothy has toured the world, taking his show to more than 13 countries and headlining major festivals such as Bass Coast, Burning Man, Astral Harvest and Vancouver's International Folk Festival. From a massive rave in the Czech Republic, to a dark club in the London underbelly, to the forests of Western Canada, his skills at hyping up a crowd are in such demand that Shambhala, the world's top Breakbeat festival, has Timothy performing at and hosting several of the stages each year.

A scientist of sound, in 2001 Timothy invented the world's first digital force-feedback turntable - the predecessor to the standard Serato and Traktor setups. His dedication to electronic music extends to his musical productions, found in the charts and record bags of sharp DJs across the globe. Working with labels such as Ghetto Funk, ReSoul, Bombstrikes, Bombastic Jam and Manmade, Timothy's tunes and unmistakable voice are at the forefront in the next generation of electronic music.

TECHNICAL RIDER

- **2 technics 1200 turntables** in good working order

- one or two loud booth monitors at shoulder height on either side of the ARTIST. The ARTIST must have control of the volume on the DJ mixer, which has ¼ outputs. IF only one monitor, it must be positioned to the immediate right of the artist

- 1 Mic

- PROMOTER to provide **Rane TTM57 SI** mixer.

- *IF space permitting the ARTIST would like his own set of turntables separate from other performers for use with his mixer. This will allow his to be ready to go at desired start time and not have to do any laptop switching.*

- a DJ booth with a level and secured platform for the mixer, decks, and other gear

- a well lit elevated surface next to or behind the DJ area upon which to place records, bags, and personals
